

Advances in Polar Science

Contents

Vol.23 No.2 June 2012

Reviews

- Progress in polar upper atmospheric physics research in China 55
LIU Ruiyuan & YANG Huigen

Articles

- Seasonal and inter-annual variations of the primary types of the Arctic sea-ice drifting patterns 72
WANG Xiaoyu & ZHAO Jinping
- Anomalously low ozone of 1997 and 2011 Arctic spring: Monitoring results and analysis 82
ZHANG Yan, WANG Weihe, LI Xiaojing, ZHANG Xingying, ZHENG Zhaojun & LIU Ruixia
- Multiple processes affecting surface seawater N₂O saturation anomalies in tropical oceans and Prydz Bay, Antarctica 87
CHEN Liqi, ZHAN Liyang, XU Suqing, ZHANG Jiexia, ZHANG Yuanhui & XU Guojie
- Summertime freshwater fractions in the surface water of the western Arctic Ocean evaluated from total alkalinity 95
GAO Zhongyong, SUN Heng, CHEN Liqi & ZHANG Fan
- Pollen morphology of selected tundra plants from the high Arctic of Ny-Ålesund, Svalbard 103
YAO Yifeng, ZHAO Qi, BERA Subir, LI Xiaoli & LI Chengsen

Letters

- Composition and distribution of fish species collected during the fourth Chinese National Arctic Research Expedition in 2010 116
LIN Longshan, LIAO Yunchih, ZHANG Jing, ZHENG Senlin, XIANG Peng, YU Xingguang, WU Risheng & SHAO Kwangtsao
- Preliminary investigations on Arctic microalgae by joint application of fluorescent instruments 128
ZHANG Fang, HE Jianfeng & GUANG Yingzhi
