

# Advances in Polar Science

Special Issue on Summertime Ocean and Sea Ice in the Central Arctic

Contents

Vol.22 No.4 December 2011

---

## Articles

- Stable oxygen and carbon isotopes from the planktonic foraminifera *Neogloboquadrina pachyderma* in the Western Arctic surface sediments: Implications for water mass distribution..... 205  
XIAO Wenshen, WANG Rujian & CHENG Xinrong
- Late Quaternary terrigenous sedimentation in the Western Arctic Ocean as exemplified by a sedimentary record from the Alpha Ridge..... 215  
LIU Weinan, WANG Rujian, CHEN Jianfang, CHENG Zhenbo, CHEN Zhihua & SUN Yechen
- Summer water temperature structures and their interannual variation in the upper Canada Basin..... 223  
ZHAO Jinping & CAO Yong
- Variation of upper-ocean heat content in the Canada Basin in summers of 2003 and 2008..... 235  
ZHONG Wenli & ZHAO Jinping
- Distributions of dissolved inorganic carbon and total alkalinity in the Western Arctic Ocean..... 246  
SUN Heng, GAO Zhongyong, CHEN Liqi & ZHANG Fan
- On board measurement of black carbon aerosols over the Arctic Ocean in summer..... 253  
TANG Jie, BIAN Lingen, YAN Peng, LAI Xin & LU Changgui
- Measurement and analysis of ozone, ultraviolet B and aerosol light scattering coefficients in the Arctic..... 260  
LAI Xin, BIAN Lingen, LU Changgui & TANG Jie
- Response of nutrients and the surface phytoplankton community to ice melting in the central Arctic Ocean..... 266  
ZHUANG Yanpei, JIN Haiyan, CHEN Jianfang, WANG Bin, LI Hongliang, CHEN Fajin, LU Yong & XU Jie

## Letters

- A concept for autonomous and continuous observation of melt pond morphology: Instrument design and test trail during the 4th CHINARE-Arctic in 2010 ..... 273  
HUANG Wenfeng, LI Zhijun, WANG Yongxue & LEI Ruibo

## Trends

- Progress of Chinese research in Arctic physical oceanography during 2007–2010..... 281  
CAO Yong & ZHAO Jinping

Contents of Volume 22, 2011
