

Advances in Polar Science

Contents

Vol.23 No.4 December 2012

Articles

- Interaction between sea ice/iceberg and ship structures: A review 187
JI Shunying & LIU Shewen
- Validation of total ozone data between satellite and ground-based measured in Antarctic Zhongshan and Syowa stations 000
BIAN lingen, LIN zhong & ZHENG xiangdong
- Simultaneous optical and radar observations of poleward moving auroral forms under different IMF conditions 000
XING Zanyang, YANG Huigen, HAN Desheng, WU Zhensen, LIU Junming, HU Zejun, ZHANG Qinghe, LIU Yonghua, ZHANG Beichen & HU Hongqiao
- The distribution and concentration of particulate biogenic silica in surface waters of Prydz Bay, Antarctica, during the austral summer of 2011 000
HU Chuanyu, SHEN Chen & ZHANG Haisheng
- Influence of sea ice and sea surface temperature on the abundance of Antarctic krill in Area 48.2 000
DAI Lifeng, ZHANG Shengmao & FAN Wei
- Phytoplankton community structure changes by bio-marker from sediment in Prydz Bay, Antarctica 000
YU Peisong, ZHANG Haisheng, HU Chuanyu & LU Bing
- Organic carbon deposition flux on the North Chukchi Sea shelf based on ^{210}Pb radioactivity dating 000
LI Yiliang, YU Wen, HE Jianhua & SU Jian
- Spatial distribution of pico- and nano-phytoplankton and bacteria in the Chukchi Sea in relation to water masses 000
ZHANG Fang, HE Jianfeng, LIN Ling, LIU Ying, WANG Xiaoying & DING Chen
